Dear Mr. Westall:

DWR approves UNRBA's Description of the Water Quality Modeling Framework under the Falls Lake Rules 15A NCAC 02B .0275 (5) (f). This approval is contingent on the submittal and DWR approval of a full modeling framework before UNRBA undertakes modeling allowed under the Falls Lake Rules.

DWR approval of UNRBA's Monitoring Plan and associated QAPP must be obtained before monitoring begins, as provided for in the Falls Lake Rules. If you have questions, please contact Kathy Stecker of DWR's Modeling and Assessment Branch. Thank you and UNRBA for your commitment to improving water quality in Falls Lake.

Sincerely,

Tom Fransen, Chief
Planning Section
Division of Water Resources
